Agenda - Focus group meeting for veterinarians or other healthcare professionals on facilitating pharmacovigilance reporting of medicinal products used in poultry

11 October 2023, 10:00-17:00 CET (Amsterdam time)

Item	Agenda
1.	Introduction and overview of veterinary pharmacovigilance data on poultry
2.	Update on highly pathogenic avian influenza (HPAI)
3.	Poultry veterinarians' perspectives on pharmacovigilance/reporting and investigation of adverse events
4.	Emerging topical issues in the poultry world concerning veterinary medicinal products (VMPs) and pharmacovigilance
5.	Challenges for reporting adverse events (including lack of expected efficacy) in poultry and measures to address these
6.	Improving feedback to reporters
7.	Type of information on VMPs and adverse events is useful for poultry veterinarians
8.	Sources of information used by poultry veterinarians for the latest information on VMPs
9.	Improving dialogue between veterinarians and the EU regulatory network
10.	Conclusions and next steps

Objective(s): To gain in-depth knowledge of the challenges faced by veterinarians or other healthcare professionals specialised in poultry concerning pharmacovigilance reporting; to explore potential opportunities to address these challenges and facilitate and encourage adverse event reporting. The meeting will also provide the opportunity to foster liaison and improve dialogue between the Agency and veterinarians or other healthcare professionals specialised in poultry science at EU-level.
