Enpr-EMA newsletter 2023

Dear members and friends of Enpr-EMA,

We are happy to share our 2023 end-of-year message with you.

Please see attached the [report of the annual workshop of Enpr-EMA \(10 Oct\)](#) as well as the [minutes of the latest meeting of the members and Coordinating Group \(9 Oct\)](#). Inside these documents you will find updates on Enpr-EMA's most recent activities and plans for the upcoming year.

It was a great pleasure to see so many of you in person at our meetings in October! A real treat coming together in person again after several years of remote meetings.

Enpr-EMA's achievements would not be possible without your active support and the hard work of our members and partners. We are proud of the work that we can do together and encouraged every day that our work matters for the improvement of clinical trials for paediatric patients.

For this, we want to express our heartfelt **thanks to you!**

Next year, we want to review our membership criteria and further the development of Enpr-EMA's governing structure in preparation of the network's enlarged remit under the proposed future pharmaceutical legislation. Moreover, apart from the ongoing activities, the Coordinating Group will decide on which new initiatives and working group activities will be prioritised at their upcoming meeting in Q1 2024.

We wish you a relaxing holiday season and a moment of rest after a busy year.

We look forward to continuing our work together and seeing you next year!

Our best wishes for 2024,

Pirkko Lepola (Chair)

Gunter Egger (Co-chair)
