#### Disclaimers

Some of the information contained in this agenda is considered commercially confidential or sensitive and therefore not disclosed. With regard to intended therapeutic indications or procedure scopes listed against products, it must be noted that these may not reflect the full wording proposed by applicants and may also vary during the course of the review. Additional details on some of these procedures will be published in the PDCO Committee meeting reports (after the PDCO Opinion is adopted), and on the Opinions and decisions on paediatric investigation plans webpage (after the EMA Decision is issued).

#### Note on access to documents

Some documents mentioned in the agenda cannot be released at present following a request for access to documents within the framework of Regulation (EC) No 1049/2001 as they are subject to on-going procedures for which a final decision has not yet been adopted. They will become public when adopted or considered public according to the principles stated in the Agency policy on access to documents (EMA/127362/2006).

## 1. Introductions

### 1.1. Welcome and declarations of interest of members, alternates and experts

Pre-meeting list of participants and restrictions in relation to declarations of interests applicable to the items of the agenda for the PDCO plenary session to be held 24-26 April 2023. See April 2023 PDCO minutes (to be published post May 2023 PDCO meeting).

### 1.2. Adoption of agenda

PDCO agenda for 24-26 April 2023.

### 1.3. Adoption of the minutes

PDCO minutes for 28-31 March 2023.

## 2. Opinions

Some information related to this section cannot be disclosed at the present time as it is deemed to contain commercially confidential information.

### 2.1. Opinions on Products

#### 2.1.1. Insulin human (rDNA) - EMEA-003194-PIP02-22

---

Treatment of type 2 diabetes mellitus

Day 120 opinion

**Action:** For adoption

Endocrinology-Gynaecology-Fertility-Metabolism

*Note: Withdrawal request received on 17 April 2023*

#### 2.1.2. Crofelemer - Orphan - EMEA-003296-PIP01-22

---

Napo Therapeutics S.p.A.; Treatment of short bowel syndrome

Day 120 opinion

**Action:** For adoption

Gastroenterology-Hepatology

### 2.1.3. Efgartigimod alfa - EMEA-002597-PIP08-22

---

Treatment of dermatomyositis / Treatment of polymyositis (including antisynthetase syndrome) / Treatment of immune-mediated necrotising myopathy

Day 120 opinion

**Action:** For adoption

Immunology-Rheumatology-Transplantation

### 2.1.4. Asunercept - Orphan - EMEA-003201-PIP01-22

---

Apogenix AG; Treatment of coronavirus disease 2019 (COVID-19)

Day 120 opinion

**Action:** For adoption

Infectious Diseases

### 2.1.5. Fosmanogepix - Orphan - EMEA-003280-PIP01-22

---

Pfizer Europe MA EEIG; Treatment of invasive fungal infections

Day 120 opinion

**Action:** For adoption

Infectious Diseases

### 2.1.6. RNA replicase inhibitor - EMEA-003306-PIP01-22

---

Treatment of coronavirus disease 2019 (COVID-19)

Day 120 opinion

## 12. Explanatory notes

The Notes give a brief explanation of relevant agenda items and should be read in conjunction with the agenda.

**Paediatric investigation plan (PIP)** (*section 2.1 Opinion on PIPs and section 3.1 Discussions on PIPs*)

A paediatric investigation plan (PIP) is a development plan aimed at ensuring that the necessary data are obtained through studies in children, when it is safe to do so, to support the authorisation of a medicine for children. Pharmaceutical companies submit proposals for PIPs to the European Medicines Agency's Paediatric Committee (PDCO). This Committee is responsible for agreeing or refusing the plan.

**Compliance checks** (*section 2.2 Opinions on Compliance check, section 3.2 Discussions on Compliance check*)

A compliance check may be necessary before any application for marketing authorisation (even for an adult indication) can be considered valid, if there was no deferral for at least one of the studies agreed in the PIP, or after the due date of initiation or completion of a study/measure. The same applies to some regulatory applications for authorised products, as described above.

**Modification of an Agreed Paediatric Investigation Plan** (*section 2.3 Opinions on Modification of an agreed PIP, section 3.3 Discussions on Modification of an agreed PIP*)

The development plan for a medicine can be modified at a later stage as knowledge increases. Modifications can also be made if the applicant encounters such difficulties with the implementation of a PIP, which render it unworkable or no longer appropriate.

In some cases, studies can be deferred until after the studies in adults have been conducted. This ensures that research in children is done only when it is safe and ethical to do so. Even when studies are deferred, the PIP will include details of the paediatric studies and their timelines.

**Class waiver** (*section 6 Discussion on the applicability of class waiver*)

As some diseases do not affect children (for example Parkinson's disease), the development of medicines for these diseases should not be performed in children. In these cases, a PIP is not required and it will be waived. For more information on the classes of diseases subject to waivers, see [class waivers](#).

**Annual reports on deferrals** (*section 8*)

If the medicinal product is approved in the EU, annual reports on the deferred measures in the PIP must be submitted to the Agency.

More detailed information on the above terms can be found on the EMA website: [www.ema.europa.eu/](http://www.ema.europa.eu/)
