Influence of psyllium preparations on plasma and liver lipids of cholesterol-fed rats. Artery 1995; 21: 303-11
(corresponding to ESCOP monograph reference 37)

(7) Gelissen IC et al.
Effect of Plantago ovata (psyllium) husk and seeds on sterol metabolism: studies in normal and ileostomy subjects.
American Journal of Clinical Nutrition 1994; 59: 395-400

(8) Mahapatra SC et al.
Effect of cellulose and ispaghula on intestinal function of hamsters maintained on diets of varying fibre content.
Indian Journal of Medical Research 1988; 88: 175-180
(corresponding to ESCOP monograph reference 39)

(9) Leng-Peschlow E.
Interference of dietary fibres with gastrointestinal enzymes in vitro.
Digestion 1989; 44: 200-10

(10) German Monograph on Plantaginis ovatae semen of the Commission E, Bundesanzeiger Nr. 22a vom 01.02.1990, correction Bundesanzeiger Nr. 74 vom 19,04.1991

(11) Hamouz W.
Die Behandlung der akuten und chronischen Diarrhö mit Agiocur®.
Med Klin 1984; 79: 32-3
(corresponding to Ispaghula husk assessment report reference 79)

(12) Segawa K et al.
Cholesterol-lowering effects of psyllium seed associated with urea metabolism. Biological & pharmaceutical bulletin 1998; 21: 184-7
(corresponding to ESCOP monograph reference 38)

(13) Williams CL et al.
A summary of conference recommendations on dietary fiber in childhood
Conference on Dietary Fiber in Childhood, New York (New York, USA),
May 24, 1994. Pediatrics 1995; 96: 1023-8
(corresponding to Ispaghula husk assessment report reference 95)

(14) Williams CL et al.
Is a high-fiber diet safe for children?
Pediatric 1995; 96: 1014-9
(corresponding to Ispaghula husk assessment report reference 96)

(15) McClung HJ et al.
Constipation and dietary fiber intake in children.
Pediatrics 1995; 96: 999-1001
(corresponding to Ispaghula husk assessment report reference 97)

(16) Bishop C.
Nonprescription drugs: guide to the pregnant patient. Part 4.
Canadian Pharmaceutical Journal (Canada) 1978; 111: 385-8.
(corresponding to Ispaghula husk assessment report reference 98)

(17) Greenhalf JO et al.
Laxative in the treatment of constipation in pregnant and breast-feeding mothers.
The Practitioner 1973; 210: 259-63
(corresponding to Ispaghula husk assessment report reference 99)

(18) Rubira N et al.
Occupational asthma and anaphylaxis due to seeds of Plantago ovata.
Alergologia e Inmunologia Clinica 2000; 15: 96-9
(corresponding to Ispaghula husk assessment report reference 101)

(19) Aleman AM et al.
Asthma related to inhalation of Plantago ovata.
Medicina Clinica 2001; 116: 20-2 (corresponding to Ispaghula husk assessment report reference 102)

(20) Khalli B et al.
Psyllium-associated anaphylaxis and death: a case report and review of the literature. Annals of allergy, asthma & immunology: Official publication of the American College of Allergy,

Asthma, & Immunology 2003; 91: 579-84
(corresponding to Ispaghula husk assessment report reference 103)

(21) Sölter H, Lorenz D
Summary of clinical results with Prodiem® Plain. A bowel-regulating agent.
Today's therapeutic Trends 1983; 1: 45 – 59

(22) Post-evaluation of the studies with Agiocur® from the publication by Sölter and Lorenz (Today's therapeutic Trens 1 (1983), 45-59) with reference to the effective Plantago ovata dosage in comparison to dosages published in monographs. Madaus.
Cologne 25 July 2005
