

Working group “recognition criteria”

- Examples in meeting documents too early
- Criteria are in the context of the European network goals and how it should operate
- Sections / subdivided criteria?
- Matrix of criteria vis-à-vis network “stage”
- Self-declaration to be published web site
- Important criteria: what competencies can be shared? What is the added value?

Recognition criteria

- Capacity to access and involve patients
- Expertise in the therapeutic area
- Capacity to manage paediatric trials
- Capacity to build up new centres
- Capacity from involved in trials
- Established network quality measures

Further work

- No nominations -> all will contribute to survey of networks (re competencies, potentially also re criteria)
- Draft to be created within six months
