Translated -English, French, Italian and Spanish.

- Where you work and your professional role
- Grades Training and Career Pathways
- Literacy level in English and access to training education
- Issues affecting retention and recruitment.
- Awareness of C4C training academy and access to hub
- Willingness to join EU Forum

# Survey of EU Research Nurse Managers

---

Survey: Designed using SNAP 11 Survey software – held on a secure University Server

- 27 Questions – < 15 min to complete
- Currently tested within group for-
  - ease of use
  - sense check terminology for different countries

English, French, Italian and Spanish.

- Where you work and your professional role
- Grades Training and Career Pathways of nurses
- Career Development – Opportunities- Promoted Positions – ANP, CNS
- Literacy level in English of staff and access to training education
- Issues affecting retention and recruitment.
- Awareness of C4C training academy and access to hub
- Willingness to join a EnprEMA Nurse Network

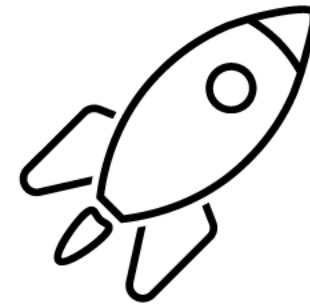

# E-mail template

- 
- Please see below a link to the
  - **Survey of the Employment, Qualifications and Training of Research Nurses working on Paediatric Studies in European Countries and UK**
  - The survey should take you approximately 10 minutes to complete and is available in English, French, Italian and Spanish. The responses will be used to collate information about the employment conditions, qualifications and training of nurses employed in paediatric research, in European and the UK. We intend to gain an understanding of the opportunities and restrictions that exist for research nurses, and to present this information to EnprEMA (European Network of Paediatric Research Networks at the European Medicines Agency [www.ema.europa.eu/en/partners-networks/networks/european-network-paediatric-research-european-medicines-agency-enpr-ema](http://www.ema.europa.eu/en/partners-networks/networks/european-network-paediatric-research-european-medicines-agency-enpr-ema)) and Conect4Children ([conect4children.org](http://conect4children.org)).
  - 
  - The Survey is developed using SNAP 11 Survey software and hosted on the University Of Aberdeen secure server.
  - Research Nurse Director and Manager Survey <http://viis.abdn.ac.uk/snapwebhost/s.asp?k=167646104719>
  - 
  - We will use this data to promote the specialist role of the paediatric research nurse within Europe and to inform future decisions regarding training accessibility, and the potential need for a research nurse forum within EnprEMA.
  - You have been approached to provide your insight into the training and career development of research nurses in your country and your awareness of any barriers you consider may hinder the retention and recruitment of research nurses.
  - There is also a separate survey for research nurses. We would be very grateful if you would forward this to paediatric research nurses in your hospital or department.
  - Research Nurse Survey <http://viis.abdn.ac.uk/snapwebhost/s.asp?k=164329369399>
  - 
  - Thank you for your time.

# Ready to Launch

---

Surveys are live

Distribution of link via

- Distributed via WG, Local Networks, EnprEMA

# Plan Moving Forward

---

- **Peer Support:**

- Establish a membership of research nurses
- Implementation of a forum for peer-to-peer communication
- Build relationship and collaborate with **C4C Network**

- **Training:**

Assess translation requirements- prioritise which languages

# Thanks
