# HUNGARIAN PRIMARY CARE PAEDIATRICIAN ASSOCIATION (HGYE)

## HunPedNet :

is an organization with independent legal entity within the framework of Hungarian Primary Care Paediatrician Association

**Financial support from MCRN Hungary**

## **MISSION AND AIMS OF HUNPEDNET**

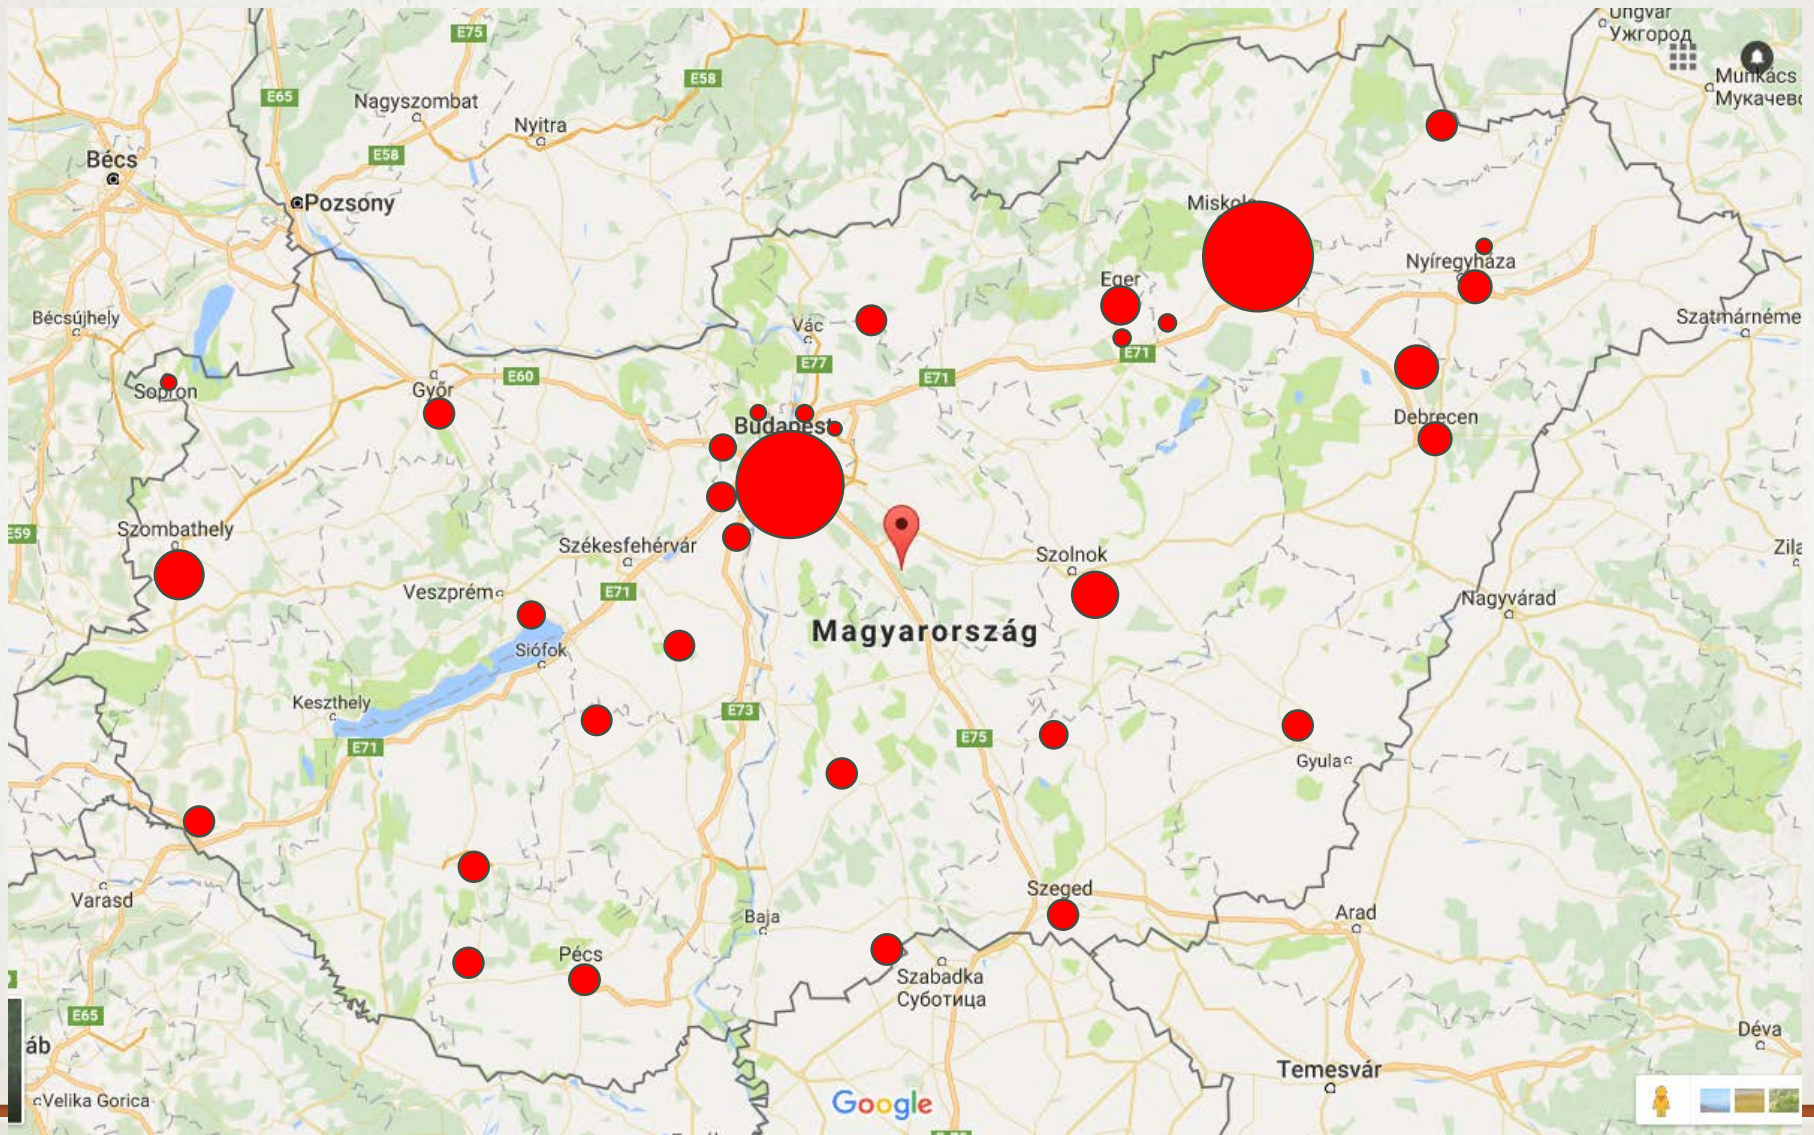

- **HunPedNet was created with the aim of obtaining new medicines, formulas and vaccines for Hungarian children via facilitating conducting clinical trials in children.**
  - **Clinical trials are conducted according to GCP and comply with EU Directive 2001/20/EC on Clinical Trials.**
  - **The Hungarian and European data protection regulation is adhered.**
  - **We keep ethical considerations for clinical trials on medicinal products conducted with the paediatric population.**
  - **Clinical trials can be conducted based on approval of independent ethics committee with paediatric expertise.**
  - **We collaborate with patient organisations, with paediatric clinical research networks, with CROs.**
-

# EVERYDAY ACTIVITY OF HUNPEDNET

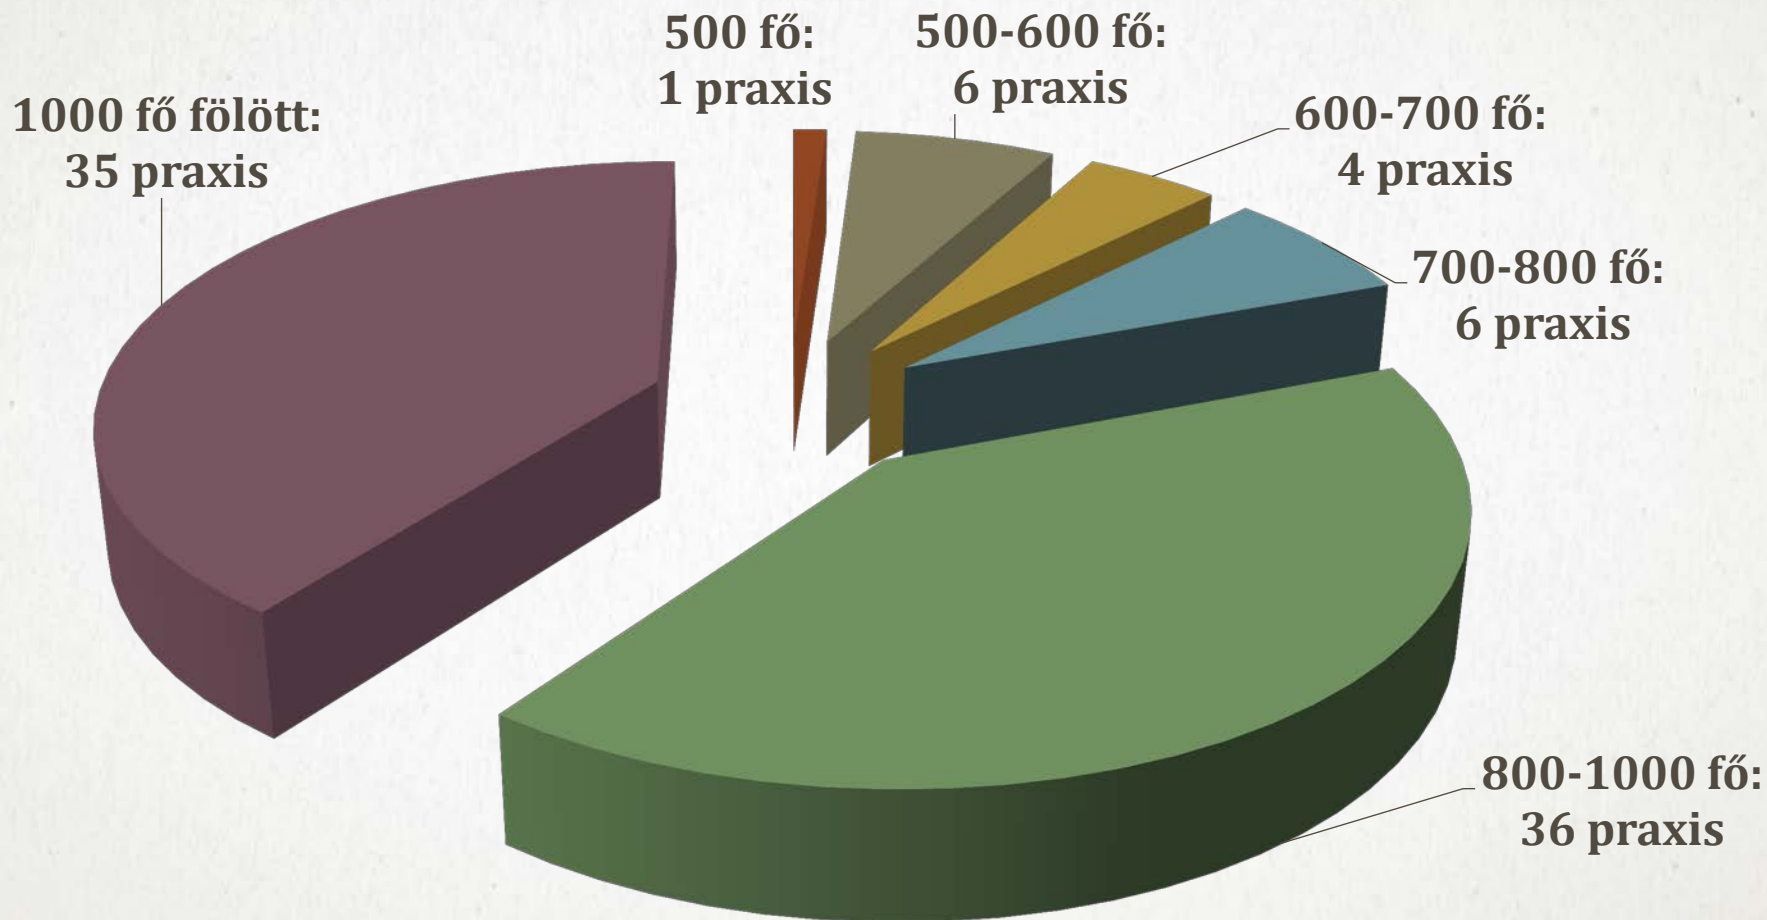

- Feasibility dissemination among HunPedNet members, collecting the colleagues interested in and mediate between the CRO/sponsor and the prospective investigators
    - Organize on job training
  - Newsletters about GCP trainings and conferences
  - We do not facilitate contracting at the moment
    - Later we may centralize the:
      - Contracting
    - Source documentation template
      - SOP writing
    - Instrument purchase and calibration
-

- dermatology
- clinical pharmacology
- psychotherapy / mental health hygiene
- lipidology license
- diabetology license
- rehabilitation
- CRA
- nephrology
- haematology
- gastroenterology
- sports medicine

# RELATIONSHIP OF HUNPEDNET

# WHAT ABOUT MCRN HUNGARY, HUNPEDNET AND THE FUTURENEST LTD. RELATIONSHIP?

- Primary care paediatricians work separately from hospitals
- The relationship is good enough with physicians working in hospitals, but not always conflict-free
- Primary care paediatricians have independent above mentioned association (HGYE) and are contacted /addressed and organized to do some new good things such as **HunPedNet** only via this association, in the frame of their own association. HunPedNet is not a for profit organization.
- **MCRN Hungary** aims to collect all paediatricians conducting clinical trials in Hungary not only those working in primary care, and it also supported financially the organizing of the HunPedNet.
- **Futurenest Ltd** – earlier known in EnprEma as a paediatric primary care network, has some own sites in Hungary. It is a for profit Ltd which conducts paediatric clinical trials from 2010 and has investigators with great experience. The owners of Futurenest Ltd (who are members of the Primary Care paediatricians Association as well) recognized at the meetings in EMA that it is very important to establish a network for the whole country to attract more paediatric clinical trials for Hungarian children. MCRN Hungary and HunPedNet were organized parallel at the same time.
