# WHY eYPAGnet? External reasons

- Specific environment to regulate the development of new treatments in Europe. Different from FDA or others.
- EMA has established a framework to involve the young patients in their activities.
- Creation of the Pan-European Network of Paediatric Clinical Trials (IMI2 Project). 2018-2023
- Increase the collaboration among European YPAG: all the paediatric clinical trials are international.

# WHY eYPAGnet? Internal reasons

- Improve collaboration with different stakeholders.
- Gather examples of best practice and promote research in the field of young patients advocacy.
- Consolidate the European curriculum of capacity-building and empowerment training programs to the young patients.
- Europe's ICAN SOP to promote and lead the creation of new chapters.
- Create a common portfolio of YPAG's services addressed to the stakeholders: White Paper.

# WHERE are we?

 Founder team

 Team in process

# WHAT are we going to do?

Informed groups

Training in  
clinical research

Scientific  
meetings

Single point of  
contact

Coordination at  
European level

Business model  
for sustainability
