

ANNEX I

**LIST OF THE INVENTED NAMES, PHARMACEUTICAL FORMS, STRENGTHS OF THE
MEDICINAL PRODUCTS, ROUTE OF ADMINISTRATION AND MARKETING
AUTHORISATION HOLDERS IN THE MEMBER STATES**

ATOMOXETINE containing medicinal products with Marketing Authorisation in the European Union

| Member State | Marketing Authorisation Holder | Invented Name | Strength | Pharmaceutical form | Route of administration |
|---------------------|--|--------------------------------|-----------------|----------------------------|--------------------------------|
| Germany | Lilly Deutschland GmbH Saalburgstr. 153 D-61350 Bad Homburg | STRATTERA 5 mg Hartkapseln | 5 mg | Capsule, hard | Oral use |
| Germany | Lilly Deutschland GmbH Saalburgstr. 153 D-61350 Bad Homburg | STRATTERA 10 mg Hartkapseln | 10 mg | Capsule, hard | Oral use |
| Germany | Lilly Deutschland GmbH Saalburgstr. 153 D-61350 Bad Homburg | STRATTERA 18 mg Hartkapseln | 18 mg | Capsule, hard | Oral use |
| Germany | Lilly Deutschland GmbH Saalburgstr. 153 D-61350 Bad Homburg | STRATTERA 25 mg Hartkapseln | 25 mg | Capsule, hard | Oral use |
| Germany | Lilly Deutschland GmbH Saalburgstr. 153 D-61350 Bad Homburg | STRATTERA 40 mg Hartkapseln | 40 mg | Capsule, hard | Oral use |
| Germany | Eli Lilly and Company Ltd. Kingsclere Road GB-RG21 6XA Basingstoke, Hampshire | STRATTERA 60 mg Hartkapseln | 60 mg | Capsule, hard | Oral use |
| Netherlands | Eli Lilly Nederland BV Postbus 379 3990 GD Houten, Netherland | Strattera 5 mg, harde capsules | 5 mg | Capsule, hard | Oral use |

| Member State | Marketing Authorisation Holder | Invented Name | Strength | Pharmaceutical form | Route of administration |
|---------------------|--|---------------------------------|-----------------|----------------------------|--------------------------------|
| Netherlands | Eli Lilly Nederland BV Postbus 379 3990 GD Houten | Strattera 10 mg, harde capsule | 10 mg | Capsule, hard | Oral use |
| Netherlands | Eli Lilly Nederland BV Postbus 379 3990 GD Houten | Strattera 18 mg, harde capsules | 18 mg | Capsule, hard | Oral use |
| Netherlands | Eli Lilly Nederland BV Postbus 379 3990 GD Houten | Strattera 25 mg, harde capsules | 25 mg | Capsule, hard | Oral use |
| Netherlands | Eli Lilly Nederland BV Postbus 379 3990 GD Houten | Strattera 40 mg, harde capsules | 40 mg | Capsule, hard | Oral use |
| Netherlands | Eli Lilly Nederland BV Postbus 379 3990 GD Houten | Strattera 60 mg, harde capsules | 60 mg | Capsule, hard | Oral use |
| Norway | Eli Lilly Norge AS, Grenseveien 99, P.O.Box 6090 Etterstad, NO-0601 Oslo, Norway | Strattera | 5 mg | Capsule, hard | Oral use |
| Norway | Eli Lilly Norge AS, Grenseveien 99, P.O.Box 6090 Etterstad, NO-0601 Oslo, Norway | Strattera | 10 mg | Capsule, hard | Oral use |

| Member State | Marketing Authorisation Holder | Invented Name | Strength | Pharmaceutical form | Route of administration |
|-----------------------|---|----------------------|-----------------|----------------------------|--------------------------------|
| Norway | Eli Lilly Norge AS, Grenseveien 99, P.O.Box 6090 Etterstad, NO-0601 Oslo, Norway | Strattera | 18 mg | Capsule, hard | Oral use |
| Norway | Eli Lilly Norge AS, Grenseveien 99, P.O.Box 6090 Etterstad, NO-0601 Oslo, Norway | Strattera | 25 mg | Capsule, hard | Oral use |
| Norway | Eli Lilly Norge AS, Grenseveien 99, P.O.Box 6090 Etterstad, NO-0601 Oslo, Norway | Strattera | 40 mg | Capsule, hard | Oral use |
| Norway | Eli Lilly Norge AS, Grenseveien 99, P.O.Box 6090 Etterstad, NO-0601 Oslo, Norway | Strattera | 60 mg | Capsule, hard | Oral use |
| United Kingdom | Eli Lilly & Company Limited; Lilly House, Priestley Road; Basingstoke, Hants RG24 9NL; UK | Strattera | 5mg | Capsule,hard | Oral use |
| United Kingdom | Eli Lilly & Company Limited; Lilly House, Priestley Road; Basingstoke, Hants RG24 9NL; UK | Strattera | 10mg | Capsule,hard | Oral use |
| United Kingdom | Eli Lilly & Company Limited; Lilly House, Priestley Road; Basingstoke, Hants RG24 9NL; UK | Strattera | 18mg | Capsule,hard | Oral use |

| Member State | Marketing Authorisation Holder | Invented Name | Strength | Pharmaceutical form | Route of administration |
|----------------|---|---------------|----------|---------------------|-------------------------|
| United Kingdom | Eli Lilly & Company Limited; Lilly House, Priestley Road; Basingstoke, Hants RG24 9NL; UK | Strattera | 25mg | Capsule,hard | Oral use |
| United Kingdom | Eli Lilly & Company Limited; Lilly House, Priestley Road; Basingstoke, Hants RG24 9NL; UK | Strattera | 40mg | Capsule,hard | Oral use |
| United Kingdom | Eli Lilly & Company Limited; Lilly House, Priestley Road; Basingstoke, Hants RG24 9NL; UK | Strattera | 60mg | Capsule,hard | Oral use |

CITALOPRAM containing medicinal products with Marketing Authorisation in the European Union

| Member State | Marketing Authorisation Holder | Invented Name | Strength | Pharmaceutical form | Route of administration |
|--------------|--|---|----------|---------------------|-------------------------|
| Austria | 1A Pharma GmbH, Degengasse 70, 1160 Wien, Austria | Citalopram "1A Pharma" 20mg-Filmtabletten | 20mg | Film-coated tablet | Oral use |

ANNEX II

**SCIENTIFIC CONCLUSIONS AND GROUNDS FOR AMENDMENT OF THE SUMMARIES
OF PRODUCT CHARACTERISTICS AND PACKAGE LEAFLETS PRESENTED
BY THE EMEA**

SCIENTIFIC CONCLUSIONS

OVERALL SUMMARY OF THE SCIENTIFIC EVALUATION OF MEDICINAL PRODUCTS CONTAINING FLUOXETINE, FLUVOXAMINE, SERTRALINE, PAROXETINE, CITALOPRAM, ESCITALOPRAM, ATOMOXETINE, VENLAFAXINE, MIANSERINE, MILNACIPRAN, REBOXETINE AND MIRTAZAPINE (see Annex I)

Following a request from the European Commission, the CHMP reviewed the data from clinical trials available to the national competent authorities for the following SSRI¹/SNRIs² products particularly as regards their use in the paediatric population: fluoxetine, fluvoxamine, sertraline, paroxetine, citalopram, escitalopram, atomoxetine, duloxetine, venlafaxine, mianserine, milnacipran, reboxetine, and mirtazapine.

The data reviewed included short-term placebo controlled randomised clinical trials submitted to the competent authorities, randomised clinical trials published in the medical literature, observational studies and ecological studies. The majority of trials included patients with major depressive disorders (MDD) while a few included patients with various anxiety disorders (Obsessive Compulsive Disorder (OCD), Generalised Anxiety Disorder (GAD), and Social Anxiety Disorder (SAD)). In addition there were some trials with patients suffering from Attention Deficit/Hyperactivity Disorder (ADHD).

These products are not authorised Europe-wide for the treatment of depression and anxiety disorders in children or adolescents. Only some of these products are authorised for the treatment of children and adolescents with obsessive-compulsive disorder and only one of them for the treatment of Attention Deficit/Hyperactivity Disorder.

Examination of suicide-related behaviours indicated that no completed suicide was reported in any of the reviewed studies. However, there was a clear suicide-related behaviours signal from the depression studies and a less strong signal from the anxiety studies. Moreover there was a signal concerning related adverse events like hostility, self-harm and emotional lability in almost all products and indications.

With the preliminary review of the data available to the national competent authorities the CHMP concluded that there were grounds for concerns about increased suicide-related behaviours in paediatric populations. The CHMP agreed that there was a potential signal of an increase in suicidal behaviour, including suicide attempts and suicidal ideation and/or related behaviour like self-harm, hostility and mood lability in children and adolescents treated with SSRIs and SNRIs. This signal was present in all products for which studies were available, and from the available evidence it could not be excluded that this signal would be class related.

Following the review of the data available to the national competent authorities, the European Commission triggered an article 31 of Directive 2001/83/EC, as amended, on 17 December 2004. The EC requested the CHMP to give its opinion on whether the marketing authorisation for medicinal products containing the above mentioned active substances should be maintained, varied, suspended or withdrawn.

¹ SSRI stands for 'Serotonin-Selective Reuptake Inhibitor'. SSRIs are described as 'selective' because they affect only the reuptake pumps responsible for serotonin.

² SNRI stands for 'Serotonin-Norepinephrine Reuptake Inhibitor'. SNRIs work on the norepinephrine and serotonin neurotransmitters

The CHMP reviewed the data submitted by the MAHs in relation to the signal of suicidal behaviour in children and adolescents. The CHMP concluded that a warning to reflect that suicide-related behaviours (suicide attempt and suicidal thoughts), and hostility (predominantly aggression, oppositional behaviour and anger) were more frequently observed in clinical trials among children and adolescents treated with antidepressants compared to those treated with placebo, should be included in the Summaries of Product Characteristics and relevant section of the Package Leaflets of citalopram, escitalopram, fluoxetine, fluvoxamine, mianserine, milnacipran, mirtazapine, paroxetine, reboxetine, sertraline and venlafaxine containing medicinal products.

The Committee also concluded that a different warning was more appropriate for atomoxetine, which is only indicated in the treatment of ADHD. The CHMP considered that there wasn't any signal of increased risk of suicide related behaviour in the atomoxetine studies, however, there was a signal of an increased risk of behavioural abnormalities with more aggression and hostility effects. Therefore the CHMP concluded that a warning to reflect that hostility (predominantly aggression, oppositional behaviour and anger) and emotional lability were more frequently observed in clinical trials among children and adolescents treated with atomoxetine compared to those treated with placebo and a warning indicating the lack of efficacy in depression should be included in the Summaries of Product Characteristics and the relevant section of the Package Leaflets of atomoxetine containing medicinal products.

GROUND S FOR AMENDMENT OF THE SUMMARIES OF PRODUCT CHARACTERISTICS

Whereas

- The Committee considered the referral made under article 31 of Directive 2001/83/EC, as amended, for medicinal products containing atomoxetine, citalopram, escitalopram, fluoxetine, fluvoxamine, mianserine, milnacipran, mirtazapine, paroxetine, reboxetine, sertraline and venlafaxine;
- The Committee, in view of available data from clinical trials, concluded that there is a signal of suicidal behaviour, including suicide attempts and suicidal ideation and/or related behaviour like self-harm, hostility and mood lability in children and adolescents treated with Selective Serotonin Reuptake Inhibitors and Serotonin-Norepinephrine Reuptake Inhibitors, such as the medicinal products mentioned above;
- The Committee, as a consequence, concluded that a warning to reflect that suicide-related behaviours (suicide attempt and suicidal thoughts), and hostility (predominantly aggression, oppositional behaviour and anger) were more frequently observed in clinical trials among children and adolescents treated with antidepressants compared to those treated with placebo, should be included in the Summaries of Product Characteristics and relevant section of the Package Leaflets of citalopram, escitalopram, fluoxetine, fluvoxamine, mianserine, milnacipran, mirtazapine, paroxetine, reboxetine, sertraline and venlafaxine containing medicinal products.
- For atomoxetine, which is only indicated in the treatment of ADHD, the Committee concluded that a warning to reflect that hostility (predominantly aggression, oppositional behaviour and anger), and emotional lability were more frequently observed in clinical trials among children and adolescents treated with atomoxetine compared to those treated with placebo and a warning indicating the lack of efficacy in depression should be included in the Summaries of Product Characteristics and relevant section of the Package Leaflets of atomoxetine containing medicinal products.

The CHMP has recommended the maintenance of the Marketing Authorisations for the medicinal products referred to in Annex I for which the amendments to the relevant sections of the Summary of Product Characteristics and Package Leaflets are set out respectively in Annexes III and IV.

ANNEX III

**AMENDMENTS TO THE
SUMMARY OF PRODUCT CHARACTERISTICS**

Note: This section of the Summary of Product Characteristics is the one that was Annexed to the Commission Decision on this Article 31 referral . The text was valid at that time.

After the Commission Decision, the Member State competent authorities will update the product information as required. Therefore, this wording may not necessarily represent the current text.

III.1 AMENDMENTS TO BE INCLUDED IN THE RELEVANT SECTION OF THE SPC FOR FLUOXETINE, FLUVOXAMINE, SERTRALINE, PAROXETINE, CITALOPRAM, ESCITALOPRAM, VENLAFAXINE, MIANSERINE, MILNACIPRAN, REBOXETINE AND MIRTAZAPINE

4.4 Special warnings and Special precautions for use

[.....]

Use in children and adolescents under 18 years of age

[Invented Name] should not be used in the treatment of children and adolescents under the age of 18 years <, except for patients with [approved indication]>. Suicide-related behaviours (suicide attempt and suicidal thoughts), and hostility (predominantly aggression, oppositional behaviour and anger) were more frequently observed in clinical trials among children and adolescents treated with antidepressants compared to those treated with placebo. If, based on clinical need, a decision to treat is nevertheless taken, the patient should be carefully monitored for the appearance of suicidal symptoms. In addition, long-term safety data in children and adolescents concerning growth, maturation and cognitive and behavioural development are lacking.

[.....]

III.2 AMENDMENTS TO BE INCLUDED IN THE RELEVANT SECTION OF THE SPC FOR ATOMOXETINE

4.4 Special warnings and precautions for use

[.....]

Hostility (predominantly aggression, oppositional behaviour and anger) and emotional lability were more frequently observed in clinical trials among children and adolescents treated with [Invented Name] compared to those treated with placebo. Patients beginning treatment for ADHD should be carefully monitored for the appearance or worsening of hostility and emotional lability. As with other psychotropic medication, the possibility of rare, serious psychiatric adverse effects cannot be excluded.

[.....]

[Invented Name] is not indicated for the treatment of major depressive episodes and/or anxiety as the results of clinical trials that were conducted in adults did not show any effect compare to placebo, and therefore were negative.

[.....]

ANNEX IV
AMENDMENTS TO THE
PACKAGE LEAFLET

Note: This section of the Package Leaflet is the one that was Annexed to the Commission Decision on this Article 31 referral . The text was valid at that time.

After the Commission Decision, the Member State competent authorities will update the product information as required. Therefore, this wording may not necessarily represent the current text.

IV.1 AMENDMENTS TO BE INCLUDED IN THE RELEVANT SECTION OF THE PACKAGE LEAFLET FOR FLUOXETINE, FLUVOXAMINE, SERTRALINE, PAROXETINE, CITALOPRAM, ESCITALOPRAM, VENLAFAXINE, MIANSERINE, MILNACIPRAN, REBOXETINE AND MIRTAZAPINE

[.....]

Use in children and adolescents under 18 years of age

[Invented Name] should normally not be used for children and adolescents under 18 years < except for patients with [approved indication]>. Also, you should know that patients under 18 have an increased risk of side-effects such as suicide attempt, suicidal thoughts and hostility (predominantly aggression, oppositional behaviour and anger) when they take this class of medicines. Despite this, your doctor may prescribe [Invented Name] for patients under 18 because he/she decides that this is in their best interests. If your doctor has prescribed [Invented Name] for a patient under 18 and you want to discuss this, please go back to your doctor. You should inform your doctor if any of the symptoms listed above develop or worsen when patients under 18 are taking [Invented Name]. Also, the long-term safety effects concerning growth, maturation and cognitive and behavioural development of [Invented Name] in this age group have not yet been demonstrated.

[.....]

IV.2 AMENDMENTS TO BE INCLUDED IN THE RELEVANT SECTION OF THE PL FOR ATOMOXETINE

[.....]

Patients under 18 have an increased risk of side-effects such as hostility (predominantly aggression, oppositional behaviour and anger) and emotional lability. You should inform your doctor if any of the symptoms listed above develop or worsen after treatment has begun. Also you should know that as with other psychotropic medication, the possibility of rare, serious psychiatric adverse effects cannot be excluded. Also, the long-term safety effects concerning growth, maturation and cognitive and behavioural development of [Invented Name] in this age group have not yet been demonstrated.

[.....]
