

Curriculum Vitae

Personal information **Anna Jonczyk**

Work experience

- Since 08/2023: Scientist, Federal Institute for Drugs and Medical Devices, Germany (Responsibilities: Review and validation of pharmaceutical quality in drug approval applications)

- 10/2018 - 07/2023: Scientist, University of Bonn, Life & Medical Sciences Institute, Germany (Research topics: Aptamer selection for therapeutical and diagnostic application, SELEX, topical application of aptamers)

Education and training

- 10/2016 - 09/2018: Master of Science Chemistry, University of Bonn, Germany (in-depth studies in organic synthesis, retrosynthesis, solid phase and polymer chemistry as well as medicinal chemistry and molecular biomedicine. Master thesis in the field of molecular biomedicine: Selection of nucleic acid ligands (aptamers))

- 10/2012 - 09/2016: Bachelor of Science Chemistry, University of Bonn, Germany (Basic studies in organic, inorganic, physical and quantum chemistry, bachelor thesis in biochemistry)
